

Hospitality Industry

The hospitality industry (hotels, lodges, restaurants and conference centres) caters for the privileged population that expects the best and is willing to pay for it. Yet the industry relies mostly on plastic bottled water as their main source of drinking water – a costly, often unhealthy and environmentally hazardous option.

Cirrus Water is the healthy, environmentally friendly and cost effective alternative to bottled water.

Benefits of Cirrus Water

COST EFFECTIVE

- Cirrus water is cost effective since logistic, waste management and transportation costs are removed.
- Cirrus water will save you money over time when compared to other sources of drinking water.

SUPERIOR QUALITY & HEALTHY

- The water is produced from water vapour where waterborne diseases cannot survive and doesn't risk containing chemicals associated with plastic bottled water.
- Cirrus water does not risk plastics leeching dangerous chemicals into the water.

SUSTAINABLE & ENVIRONMENTALLY FRIENDLY

- Atmospheric moisture is used to create Cirrus water making it a sustainable solution amidst a growing water crisis.
- Cirrus water is made on-site and piped directly to outlets reducing its carbon footprint.

Sector Issues

High volumes of mostly plastic bottled water is consumed at a high financial cost and large carbon footprint due to the transporting, creation and disposal of tons of plastic containers.

Cirrus Water Solution

A consistent supply of high quality Cirrus water relieves the sector issues and can differentiate businesses from their competitors.

Onsite glass bottling facilities of Cirrus drinking water allows businesses to serve branded water.
